THE ULTIMATE EXTERIOR LIGHTING SOLUTION.

Over 16 Million Colors,
more than your average string of
lights! Set them to any color in the
rainbow, including warm white.

Adjust Brightness Control,
and other aspects, including density
and speed of transitions, allowing
access to a plethora of moving
patterns that creates the ultimate
effect for any occasion.

Cloud Connected,
Gives you the freedom to control
your lighting system from
anywhere in the world.

PERMANENT, SMART, FULLY CUSTOMIZABLE LED LIGHTS.

CelebriBright installs a 20mm Smart LED light into an aluminum track that is **color-matched** to your home's existing architecture. On most homes, the track slides under the fascia and hides beneath the roofline on the soffit.

PIXEL DESIGN:

ACTUAL PIXEL SIZE
20MM | .78"

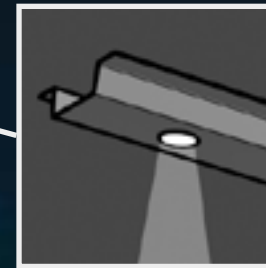

Where engineering meets beauty.

Celebright is the proud innovator of a proprietary permanent lighting system that is best-in-class and eco-friendly. Our custom bulbs are **20mm in size**, and each pixel features one point of light, encased in a frosted shell, creating a **soft diffused look** that is virtually invisible by day. The Celebright system uses about the same amount of electricity as a **60w light bulb** and uses RGBW LEDs with a dedicated white LED, offering warmer whites in an energy-efficient way.

ONE SIZE DOESN'T FIT ALL.

We offer **11 unique tracks** in 100+ colors of aluminum, which allows us to install the system on a variety of **rooflines, dormers, porches, fences,** and even **stairs!** Mix and match track styles to seamlessly integrate Celebright lighting system on your home. Let Celebright illuminate your surroundings with style and brilliance.

APP UPDATE: ZONES.

Zones let's you split a lighting system up to 10 Zones, each with its own **Look**. All Zones are controlled from a **single controller**.

TOTAL CONTROL MADE SIMPLE.

Patterns, scheduling, and individual control over each led are all easily achieved in our intuitive simple-to-use app. With **cloud connectivity**, you're able to access your system from **anywhere**.

Download pre-built Looks from our **community Look Library**. Feel like sharing? Modify an existing Look or create a new one from scratch and share it with the **Celebriht community** for all to enjoy.

SMART INTEGRATION.

Celebriht's **Smart Integration** offers a host of features that easily connect with **Google Home**, **Amazon Alexa** and **IFTTT**. Users can now control light settings, adjust color schemes, and schedule automated lighting routines through simple voice commands.

Our lighting system also integrates seamlessly into existing smart home ecosystems, allowing users to manage not just their Celebriht devices but also other compatible devices with a unified voice control experience.

"Alexa, turn on Celebriht."

Architectural lighting

Have you ever considered the other options to traditional Christmas lights? Whether you are a DIY'er or rely on installation companies to assist you, there's a better way. Neil and Susan came to Celebright looking for that solution.

They received their quote through Celebright's online submission form and were surprised to find out that the lights would pay for themselves within 3 years versus the rate they originally paid for.

Traditional Lights

Installation	\$400
Removal	\$150
Repair	\$30
Soffit kits	\$20

GET A FREE QUOTE TODAY!

A look for every season. Celebright lights are incredibly versatile, making them the perfect addition to any holiday celebration throughout the year. **Whether it's Christmas, Halloween, Thanksgiving, or any other special occasion,** our lights can effortlessly transform any space.

ABOUT US.

Some of the best origin stories start with an idea and a garage. In 2017 in Ottawa, Dan Junkins was preparing to hang Christmas lights when his wife Susan asked if they could go “bigger and brighter.”

With a background in programming and hardware engineering, Dan built a prototype after failing to find what he wanted in stores. Using technology from jumbotrons, he created a high-quality, app-controlled permanent lighting system. Neighbours soon came knocking, asking where they could get their own — instant product-market fit.

With help from talented friends, Dan and Susan launched Celebright, the world's first permanent holiday lighting company. Seven years later, Celebright has grown into a 15,000 sq ft facility, with 50+ employees, and 200+ dealers across North America — all driven by one simple mission: **bring joy through light.**

our mission:
**Bring Joy
Through
Light**

Take Care of Each Other

Treat our team, partners and customers the way you would want to be treated. Lead with kindness. Support with integrity.

Keep Innovating

Constantly improve products and processes. Take initiative and try new things. Embrace mistakes as opportunities to learn and grow.

Be Responsible

to our customers by making safe and reliable products.
to ourselves by prioritizing safety in the workplace.
to the planet by making green products.

Customer's Success is our Success

Support the success of our dealers, our team, and end users. We are all stronger when we work together. When any of us succeeds, we all benefit.

FAQ's

How much does it cost?

The primary driver of cost is how many linear feet of lighting is being installed. Each house is unique, so there's no blanket answer for this. Estimates are free, and often we can get all the measurements we need from google maps. This means we can usually get an estimate back to you quickly!

How long does installation take?

Installation depends on the size and complexity of the job, but generally, an installation can be completed in a single day.

Can the bulbs be replaced?

Yes. Replacements can be purchased through Celebright and replaced by either our team or the homeowner.

What is the warranty like?

The warranty is excellent! All of our products and installs come with a comprehensive, five-year warranty on all parts and three-year on labor.

How long will the system last?

Our lights are rated for 50,000 hours of use. That works out to over 20 years of using them every day for an average of 7 hours a night!

Is it waterproof?

Our lights are rated to IP68, they are fully waterproof and rated for use down to -40C.

Can you add to the system?

We have designed our lighting system in a modular way, you can add on to your system and control it along with the rest of your lights like nothing changed.

Are your products certified?

Yes, all our products are certified for use anywhere in Canada and the United States. Our certification is ETL listed and conforms to UL Standard UL2108 and CSA Standard C22.2# 250.2. Our ETL Listing number is 5023546.
